### 3. HOW TO USE THE WASHING MACHINE

#### Preparing for Laundry:

- Empty all the pockets of the clothes
- Lock the zips and tie the belts of the clothes to be washed
- Do not forget to check the fabric type and the programme.
- **Load laundry** – Open the door, load the laundry. Do not overload the drum. Overloading will result in unsatisfactory results.
- **Close the door** – Make sure no laundry gets stuck in the door. Close the door properly.
- **Open the water tap** - Make sure that the washing machine is connected to the water mains. Open the water tap
- **Add detergent** – Pull the dispenser and add the detergent into the relative compartments. Add the correct dosage of detergent as recommended on the detergent pack.
- Switch on the machine by pressing the ON/OFF button.
- Set the desired programme by rotating the knob.
- Press the start/pause button. Once washed the machine will beep the alarm “END” will display on the panel.
- Switch OFF the machine. Open the door, pull the washed clothes out of the drum. Leave the door ajar open to let the interior of the machine dry.

### 4. HOW TO CLEAN THE WASHING MACHINE

#### A) Cleaning Outside Of The Machine

Use a soft damp cloth to clean the outer parts of the washing machine. Do not use glass or general purpose cleaners, scouring powder or similar to clean the control panel – these substances might damage the printing.

### **B) Cleaning Inner Part Of The Machine**

#### **B.1) Cleaning the Detergent Dispenser.**

Detach the detergent dispenser by pressing on the release button and at the same time pulling out the detergent dispenser.

#### **B.2) Remove the insert from the softener compartment.**

B.3) Clean all parts under running water, removing all detergent or softener residues.

B.4) Separate the parts and clean and dry the parts with soft cloth.

B.5) Reinstall the detergent Dispenser by pushing it back.
